

INDUSTRIAL NETWORKING

Monitoring & control node with long battery life

- MESH NETWORK
- ASSET TRACKING
- MONITORING
- CONTROL

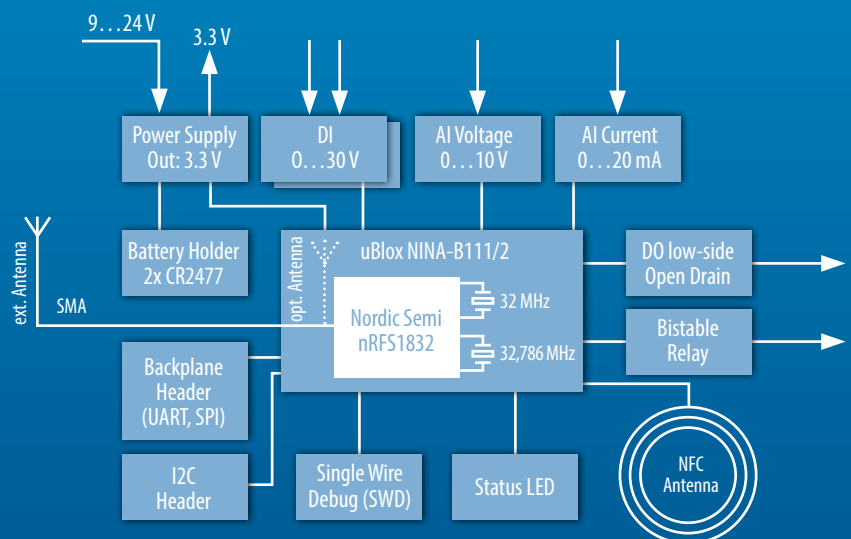

FUNCTIONALITY

- Radio interface for sensors and actuators
- Use in direct proximity to the sensor
- Long battery life up to 3 years
- Operation via 24V connection and/or integrated battery
- Use as anchor node and as mobile node
- Connector for backplane bus for extensions

TECHNICAL FEATURES

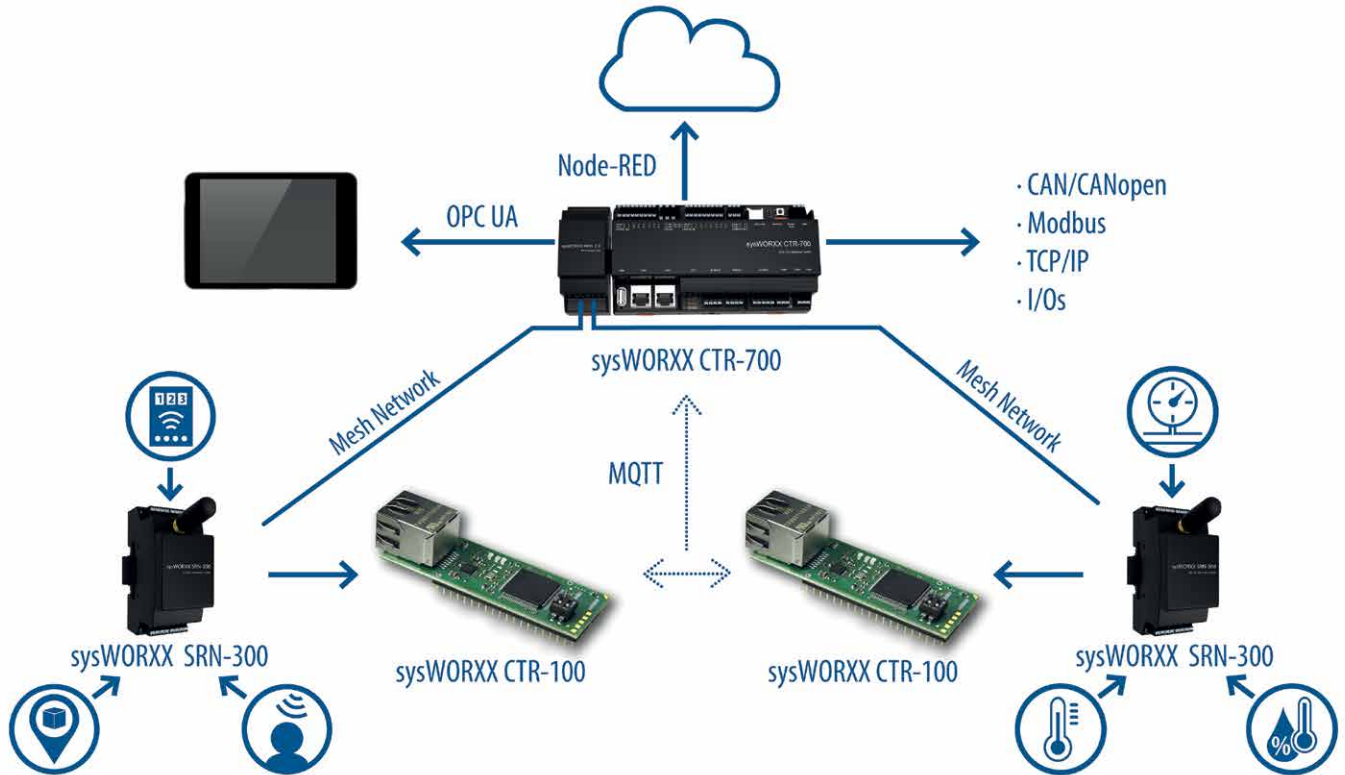

- Integration of the Wirepas Software Stack
- 2.4 GHz Transmission frequency
- NFC antenna for provisioning
